#### ■ BAJAJ-CEC HULL BEATER

Unsurpassed in efficiency, the model 4620 Hull Beater is uniquely designed with a built in tailing beater eliminating the need for additional conveying systems. Capable of handling capacities in excess of 200 tons per day of delinted & undelinted cottonseed, the model 4620 is unequalled in the industry. When combined with the CEC/BAJAJ decorticator /separator system, oil in hulls is maintained at a low level by residual meat recovery to maximum extent, even with 12 % to 14% lint on hulls.
